SUMMARY

Computer Science Engineering student with hands-on experience developing web applications and full-stack projects. Strong foundation in Java and web development, with practical experience building responsive applications, integrating REST APIs, and working with databases. A problem solver with a strong learning mindset and the ability to adapt to new technologies and development environments.

EDUCATION

Bachelor of Engineering - Computer Science and Engineering **2023 - Present**

- Mahendra College of Engineering, Salem
- CGPA: 8.3
- Graduation: 2027

Higher Secondary (12th) **2022 - 2023**

- Holy Angel's Girls Matric. Hr. Sec. School, Fairlands, Salem
- Percentage: 75%

Secondary School (10th) **2020 -2021**

- St.Joseph Matriculation School, Suramangalam
- Percentage: Passed

TECHNICAL SKILLS

- Programming Languages: Java, Python, JavaScript
- Web Technologies: HTML5, CSS3, React.js
- Backend & APIs: Spring Boot, REST APIs
- Databases: MySQL, PostgreSQL
- Tools: Git, GitHub, Postman, VS Code, Eclipse
- AI & Other: Generative AI, NLP, Computer Vision, Prompt Engineering

PROJECTS

FinCore – Secure Digital Banking Platform | Java, Spring Boot, React.js, MySQL

- Developed a full-stack banking web application with role-based workflows for administrators and customers.
- Built customer, account, transaction, loan, and reporting modules using React.js and Spring Boot.
- Integrated REST APIs between the React.js frontend and Spring Boot backend, with MySQL for data management.
- Used Axios, React Router, Hibernate/JPA, Git, GitHub, and Postman for application development and API testing.

FreshLink – Agricultural Marketplace | Java, Spring Boot, Python, PostgreSQL, HTML5, CSS3, JavaScript

- Developed a responsive full-stack web application connecting farmers and commercial buyers through dedicated user interfaces and persistent role-based authentication.
- Implemented dynamic crop listings, marketplace search, order tracking, and interactive workflows backed by Spring Boot REST controllers and a relational PostgreSQL database.
- Integrated a Python-backed AI quality analysis module for automated crop grading and defect inspection, with diagnostic reports persisted via Spring Data JPA.

CERTIFICATIONS

- Programming in Java — NPTEL, IIT Kharagpur, 2026 | Elite – 99%
- Front End Web Developer Certification — Infosys Springboard, 2026
- RISE Internship Program – Web Development — Tamizhan Skills, 2026
- Foundation Course on Green Skills and Artificial Intelligence — Edunet Foundation, AICTE & Shell India Markets, 2026
- Pragati: Path to Future - AI EMPOW(H)ER | Infosys Springboard | 2026
